Before Herbalife, Nathan was working 50+ hours/week as a demolition laborer and Michelle as a full time nanny, leaving very little time to enjoy with each other and on top of that, we were living paycheck to paycheck. We were discouraged with the directions our lives were going and knew that we needed to make a change.

We started our Herbalife business looking to make some extra income. In our first month, working very part time, about 5-7 hours/week, around our full time jobs, we made an extra \$500!

By our third month, we were making \$1,000/month! Shortly after, Michelle was able to quit her nanny job and Nathan eventually was able to leave his full time job as well!

As a result of working our Herbalife business consistently over the years, we are now making over \$20,000 per month!

Because of all that this INCREDIBLE company has provided for us, we have complete freedom, we no longer worry about paying the bills and just getting by. We now have an incredible life and we get to enjoy quality time with one another and our son.

Our lives have been completely transformed and the absolutely amazing part of it all – is that we have been able to transform our lives by transforming other lives and we now feel we are on the right path to achieve all of our goals and dreams!

EVERYONE MUST SIGN IN AT THE REGISTRATION TABLE
